

Inspire Kids FASD Support Society of BC is extending an invitation to individuals with first-hand experience as a Parent, Caregiver, Support Person, or Young Adult dealing with FASD in BC to participate in our upcoming engagement sessions. Each session is tailored to a specific group to ensure diverse voices are heard and ample time is available for meaningful interactions. We aim to provide a safe environment where you can share your experiences with others who can relate. If you don't find a suitable group, please contact us, and we will assist you in finding the right match or maybe even arrange a dedicated session for you to connect with others. Please connect through our website or by email for Zoom details and to register.
